

We are looking for team players with expertise:

SAP BW Consultant

You will own your projects, being involved in each stage of the project, including the collection of user requirements, translate this into a design and define phase considering the systems landscape architecture. During the implementation, Testing and Go live you will establish a good client relationship based on your excellent technical expertise and soft skills. You will collaborate with the team based in Germany and with the team from Romania, in developing new applications in order to meet customer expectations.

Role responsibility:

- Ensure that the user requirements fits in the design with the overall architecture strategy and framework for SAP BW
- Facilitate workshops with the customer to get the specific requirements for different areas like, Finance, Sales, etc.
- Work with IT and business colleagues to develop solutions to specific problems that at times leverage existing solutions and systems
- Actively involvement in the design, analysis and development of SAP BW Dataflows
- Conduct feasibility studies as proof of concepts and identifies business benefits
- Deliver a high quality and clean implementation aligned with the current implementation standards and best practice in SAP BW.

The ideal candidate

- Experience in application design and development – SAP BW
- Solid understanding of SAP BW front-end reporting and back-end
- Experience in ABAP or ABAP OO to create and adjust Extractors, Routines, Update Rules, variables user exits, etc.
- Knowledge in minimum two frontend tools, as Bex, WAD, Portal, Crystal reports, Webi, Dashboard designer
- Knowledge in SAP BW planning application is a plus
- Command of Web Dynpro user interface is a plus
- Good project planning and time management skills

- Excellent communication and interpersonal skills to interact with a variety of people throughout the company and external audiences
- Strong customer orientation (for both internal and external customers)
- Advanced German language skills
- Fluent in English

This is what you get

We are a young and innovative team that lets the future happen today. Always on the technical cutting edge – if that is what drives you, you are in the right place with us. We do not only work by high professional standards and a lot of expertise but also with high commitment and much zeal.

Inspiricon is a German-based Software and Consulting start-up. We are currently looking to expand our team. We know that our employees are the backbone of our success. That is why we focus on a value-based and client-orientated corporate culture that is built on confidence.

Interested? We are looking forward to meet you! Please send us your application via E-Mail to cluj@inspiricon.de.

RUN BETTER.
RUN DIFFERENT.
