# Inspiricon

We are looking for interns with passion and zeal – and open up new vistas for you.

## Internship: Development for the Cloud

You want to complete a 2 months internship? Then your search is completed! You are excited about subjects concerning cloud, HTML5, Python, JavaScript and jQuery. You have basic knowledge on programming and experience in software development.

We expect you to work with commitment, creativity, reliability as well as curiosity to learn more on trends and technologies. It would be great if you have good German language skills besides English.

### Your role:

- You are interested in topics round cloud development and programming languages like HTML5, Python, JavaScript or jQuery.
- You already have experience with at least one of the above mentioned programming languages.
- You have basic technological knowledge.
- You are studying informatics, information technology, business informatics or the like.

### This is what you get:

- The chance for a permanent position and an exciting profession after your internship.
- You will work independently: From the beginning, you will be responsible for your own projects.
- A nice „coach", who will be your mentor and answer all your questions during your internship.
- Attractive compensation.

### This is what you get:

We are a young and innovative team that lets the future happen today. Always on the technical cutting edge – if that is what drives you, you are in the right place with us. We do not only work by high professional standards and a lot of expertise but also with high commitment and much zeal.

Inspiricon is a German-based Software and we are currently looking to expand our team. We know that our employees are the backbone of our success. That is why we focus on a value-based and client-orientated corporate culture that is built on confidence.

**Interested? We are looking forward to meet you! Please send us your application via E-Mail to cluj@inspiricon.de.**

RUN BETTER. RUN DIFFERENT.
