We are looking for team players with expertise:

Junior/Middle Engineer QA (m/f)

Role responsibility

- Create user acceptance test based on client business requirements
- Support for creating concepts for our clients and for reviewing and analysing the system specifications
- Execute test cases (manual or automated) and analyse results
- Create logs to document testing phases and defects
- Report bugs and errors to development teams
- Help troubleshoot issues
- Conduct post-release/ post-implementation testing

The ideal candidate

- First ("Junior") / Proven ("Middle") experience as QA tester or in a similar role
- Experience in project management and quality assurance methodology
- Familiarity with Agile frameworks and regression testing is a plus
- Working knowledge of test management software (e.g. Zephyr) and SQL
- Analytical mind and problem-solving aptitude
- BSc/BA in Computer Science, Engineering or a related field
- Excellent Communication Skills
- Attention to details

This is what you get

We are a young and innovative team that lets the future happen today. Always on the technical cutting edge – if that is what drives you, you are in the right place with us. We do not only work by high professional standards and a lot of expertise but also with high commitment and much zeal.

Inspiricon is a German-based Software and Consulting start-up. We are currently looking to expand our team. We know that our employees are the backbone of our success. That is why we focus on a value-based and client-orientated corporate culture that is built on confidence.

Interested? We are looking forward to meet you! Please send us your application via E-Mail to cluj@inspiricon.de.

RUN BETTER.   RUN DIFFERENT.
