

We are looking for team players with expertise:

Senior Consultant SAP UI5/ SAP Fiori (m/f)

Our Fiori Team provides our customers with mobile, lean and easy-to-use interfaces and thereby, assists them in analyzing and visualizing their data and information in real-time. With your expertise, you will advise our customers in the UI environment and support the introduction and further development of sophisticated SAPUI5/SAP Fiori solutions.

These tasks are waiting for you

- Design, development and testing of SAP solutions with a focus on SAPUI5/SAP Fiori
- Creation of IT concepts and evaluation of new technologies
- Implementation of customer-specific requirements in front-end development using SAPUI5, SAP Fiori, HTML5, CSS3, JQuery or JavaScript
- Participation in the conduct of training and customer workshops and the preparation of requirements analyses
- Planning and conducting of component, system and integration tests

The ideal candidate

- perennial consulting and development experience using SAPUI5, JavaScript, CSS, HTML5, jQuery
- deep knowledge of the UI Principles and the UI theme designer
- very good knowledge of object orientation, OData, CSS and SAPUI5/SAP Fiori
- Experience in development with SAP HANA, SAP Netweaver and Gateway development as well as the Web IDE platform and the FIORI launchpad configuration
- ABAP/ABAP OO knowledge and experience of cross-application technologies such as ALE/IDOCs, RFC/BAPI are beneficial
- analytical-conceptual skills, communicational strength and a strong customer orientation characterize your way of working
- fluency in German and English is a must for us

Nice to have

- You are experienced in dealing with the SAP Mobile Platform, the HANA Cloud Platform and the HANA Cloud Connector
- You are familiar with SAP BASIS, authorizations concepts and the SAP modules SD and FI

This is what you get

Inspiricon is a software and consulting company founded in Germany.

We are a young and innovative team that is already putting the future into action today. We work not only at a highly professional level and with extensive expert knowledge, but also with a lot of passion and commitment and are always on the pulse of the times technologically – who has a flair for it, is exactly right the right colleague for us.

Because we face the projects of our customers and the demands of the market with enthusiasm and new ideas.

Our employees and their know-how are our most important resources. That's why we attach great importance to a value-based and transparent corporate culture.

Because we as a team lay the foundation for our joint success and the satisfaction of our customers.

Whether fantasy football, skiing or climbing courses – we enjoy joint events and leisure activities to compensate for the day-to-day work of the project.
