

We are looking for team players with expertise:

## SAP ABAP Consultant (m/f)

With your expertise, you plan, develop and and deliver state-of-the-art applications based on ABAP/ABAP OO, aligned with the current implementation standards and best practices in SAP BW. You ensure that the user requirements fit in the design with the overall architecture strategy and framework for SAP ABAP.

These tasks are waiting for you:

- Work with IT and business colleagues to develop solutions to specific problems that at times leverage existing solutions and systems
- Facilitate workshops with the customer to get the specific requirements for different areas like, Finance, Sales, etc.
- Active involvement in the design, analysis and development of SAP BW Data flows
- Conduct feasibility studies as proof of concepts and identify business benefits
- Participate in ABAP development of the business solutions based on functional and technical requirements
- Perform complex ABAP programming, testing and debugging of functions related to the implementation of SAP modules
- Understand the requirements from provided functional designs and transform these requirements into the technical designs
- Support the development of solutions based on newest SAP technologies such as HANA and S/4 HANA, FIORI, CDS, NewABAP, OData, HCP)

That's what we expect from you:

- Minimum 2-3 Years of experience in SAP ABAP Development
- Degree in computer science, engineering science or equal education
- Experience in application design and development in SAP
- Solid understanding of SAP front-end reporting and back-end and the roles within ABAP authorization concept
- Experience in ABAP or ABAP OO to create and adjust Extractors, Routines, Update Rules, variables user exits, etc.
- Knowledge in SAP BW IP and Web Dynpro is a plus
- Passion about ABAP development
- Basic knowledge of ERP systems in any kind of industry
- Fluent in English
- Advanced German Language Skills

### Nice to have

- Good project planning and time management skills
- Excellent communication and interpersonal skills to interact with a variety of people throughout the company and with our clients
- Flexible approach to work with a focus on delivery to deadlines
- Strong analytical skills

### This is what you get

We are a young and innovative team that lets the future happen today. Always on the technical cutting edge – if that is what drives you, you are in the right place with us. Not only do we work by high professional standards and with a lot of expertise but also with high commitment and much zeal.

Inspiricon is a German-based Software and Consulting start-up and we are currently looking to expand our team.

We know that our employees are the backbone of our success. That is why we focus on a value-based and client-orientated corporate culture that is built on transparency and trust.

Because we, as a team, jointly build the foundation to our success and the satisfaction of our customers.

Fantasy Football, Skiing or Climbing – we enjoy our teamevents and many activities together as to gain new energy and perspectives for our projects.
